Poster Stock Numbers PLEASE USE WITH PURCHASE ORDERS so we will know which style you want

All posters carry a basic four character stock number - a letter followed by three numbers. When ordering posters, add the letter code that indicates the packaging style that you want. For example, the basic number for Mammals is A151. Add the style letter to it.

A151F add "F" for Flat A151J add "J" for Jumbo
A151L add "L" for Laminated A151D add "D" for Deluxe
A151S add "S" for Standard

UPC Bar Codes

Laminated, Standard, Jumbo and Deluxe posters carry different UPC bar code numbers to permit retailers to carry various styles. These, along with stock numbers and prices are available as an electronic spreadsheet, which may be downloaded from our website. The information can then be imported into most point of sale software programs.
